

# Get your Callbox team on DialStream

Get that business edge by using a faster, more productive dialer solution to contact, connect, and close more leads.

#### What is DialStream?

**Callbox DialStream** is your quickest hookup to achieving smarter phone productivity and gaining more hot leads. With your Callbox team working seamlessly with your Salesforce contacts, you'll experience what true efficiency is all about.

#### **MORE FLEXIBILITY AND SPEED**

DialStream is built to deliver massive efficiency gains and better overall sales performance.

#### **SMARTER CONVERSATIONS**

Establish better and smarter engagement with prospects as it presents customer data relevant to each call.

#### **BETTER PERFORMANCE INSIGHTS**

Customizable reports and analytics make it easier for you to gauge effectiveness and make adjustments.

#### Key Features

## SAVE YOURSELF FROM SOFTWARE INSTALLATIONS AND DATA TRANSFERS

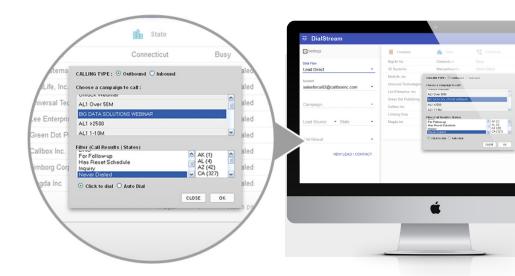

You can access and dial your Salesforce contacts directly through DialStream, no sweat! Connect to your Salesforce account with one click and you're good to go.

## KEEP AN EYE ON YOUR CAMPAIGN DIRECTLY FROM YOUR SALESFORCE ACCOUNT

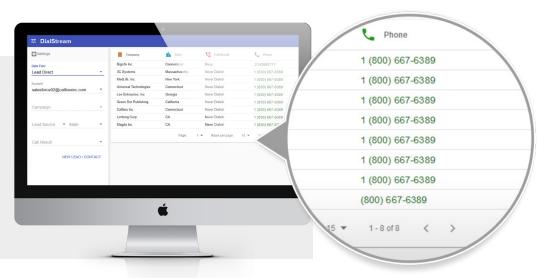

## WORK FAST AND FURIOUS WITH DIALSTREAM'S AUTO-DIAL FEATURE

We step on the gas by going "auto" on your dialling process. DialStream not only significantly increases the calls we make, but also the amount of time we spend talking to prospects.

# STAY IN CONTROL WITH GOOD OLE CLICK-TO-DIAL FUNCTION

DialStream lets your Callbox team set the ideal pace to contact your prospects. By toggling auto-dialing on or off, agents gain the flexibility to scale calling activities as needed.

## ENRICH YOUR CONVERSATIONS WITH SMART CONTEXTUAL DATA

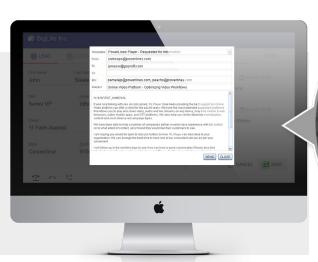

View of the relevant prospect information along with the overall activity history lets your Callbox team make smarter touchpoints with prospects to move them further down the sales funnel.

# REINFORCE YOUR CAMPAIGNS WITH EMAIL AND SOCIAL MEDIA FEATURES

We engage propsects through personalized emails and make instant connections through their social networking profiles. Nothing is more comprehensive than DialStream — with just a single tool, you get the whole enchilada.
